SECTION C. (TEACHING QUALITY)

S/N	Institution	Name	From	To	Begin Status	End Status
1	University	Covenant University, Ota.	March, 2011	Date	Professor	
2	University	Covenant University, Ota.	Feb. 2008	Feb. 2011	Associate Professor	Professor
3	University	Covenant University, Ota.	Sept. 2003	Feb. 2008	Senior Lecturer	Associate Professor
4	University	Lagos State University, Lagos.	Aug. 2001	Sept. 2003	Lecturer I	Lecturer I
5	University	Delta State University, Lagos Campus.	Oct. 1999	Aug. 2001	Lecturer I	Lecturer I
6	Polytechnic	Lagos City Polytechnic, Ikeja, Lagos.	July, 1997	Oct. 1999	Principal Lecturer	Principal Lecturer
7	University	Ladoke Akintola University, Ogbomoso.	Jan. 1993	July, 1997	Assistant Lecturer	Lecturer II
8	Polytechnic	Kaduna Polytechnic, Kaduna.	Jan. 1986	Dec. 1992	Assistant Lecturer I	Lecturer II
9	Polytechnic	Federal Polytechnic, Idah	Sept. 1984	Aug. 1985	NYSC	NYSC
10	Favourite Teaching Courses & Special Topics	Internet Programming, Data Communication and Distributed Processing, Management Information System, Mathematical Tools for Management, Operational Research, Computer Architecture and E-Commerce Technology.				
11	Skills & Facilities	Effective use of Multimedia facilities for Lecture Delivery				

SECTION D. (RESEARCH INTERESTS)

eGovernment and eBusiness, e/mLearning, Data Communications & Networking, Mobile Computing and Software Engineering.

SECTION E. (WORKING EXPERIENCE)

1. Nov. 2012 to June 2016: **Vice-Chancellor**
Covenant University, Ota, Ogun State.

Chief Academic Officer of the University.

2. Oct. 2011 to Oct. 2012: **PROFESSOR & HOD**
Dept. of Computer & Info. Sciences,
Covenant University, Ota, Ogun State.

Responsible for teaching, research and community development. I was the pioneer HOD and I developed the department, academic programmes to international standard. This is my second time as Head of Department.

3. March. 2011 to Oct. 2011: **PROFESSOR & DIRECTOR, ACADEMIC PLANNING UNIT**
Covenant University, Ota, Ogun State.

Responsible for lecturing and coordinating the academic activities of the university and ensuring high quality of teaching and research; Ensuring conducive environment for learning (deployment of lectures on the Web, provision of Multimedia equipment for teaching, preparation of time-table for Lectures and Examinations and scheduled meetings between Management and Student Leaders/Student Body); Ensuring that the Laboratories are well equipped for Research. Furthermore, I prepare the curricular for NUC accreditation and served in several other committees such as Quality and Academic Standards, Strategic Planning, Curriculum Development, and Senate Business amongst others.

3. Feb. 2008 to Feb. 2011: **ASSOCIATE PROFESSOR & DIRECTOR, ACADEMIC PLANNING UNIT**
Covenant University, Ota, Ogun State.

Performing all the functions listed in (2) above.

4. Sept. 2003 to Feb. 2008: **SENIOR LECTURER & H. O. D**
Dept. of Computer & Info. Sciences,
Covenant University, Ota, Ogun State.

Responsible for teaching, research and community development. I was the pioneer HOD and I developed the department, academic programmes to international standard. Presently, going by the last NUC accreditation, the department is rated as the best department of Computer Science in Nigeria. The department was the first and only Department in the College of Science and Technology to produce graduates in 2006.

5. Aug. 2001 to Sept.2003: **LECTURER I & H. O. D**
Lagos State University, Anthony Campus. Lagos.

Head of Department of Computer Science and responsible for teaching and research at Undergraduate and Postgraduate levels.

6. Oct. 1999 to Aug,2001: **LECTURER I & H. O. D**
Delta State University, Lagos Study Centre. Lagos.

Head of Department of Computer Science and responsible for teaching and research at Undergraduate and Postgraduate levels.

7. July 1997 to Oct. '99: **PRINCIPAL LECTURER & H. O. D**
Lagos City Polytechnic;

Responsible for lecturing, managing & maintaining the resources of the :
Novell Netware System, PCs; Student Information System; Student Examination System
and Providing Consultancy Services in:- Computer System Acquisition, Training,
Maintenance, Networking, & Software Development.

8. January, 1993 to 97: **LECTURER II;**
Ladoke Akintola University of Technology Ogbomoso;

Schedule of duty involved Teaching & System Maintenance:
Software Development & Maintenance; PC Assembly; Maintenance & Trouble
Shooting; Commercial Application Packages; Operating System; Systems Analysis and
Design.

9. January, 1986 to December, 1992 **LECTURER**, Kaduna Polytechnic.

Responsible for: Lecturing; Application program development and maintenance;
Hardware and Software installations; Providing Hardware and Software Post-installation
support; Providing consultancy services to outsiders in the areas of Statistical Analysis;
Computer Operations and Appreciation courses.

10. Sept. 1984 to Aug. 1985 **LECTURER (N.Y.S.C),**
Federal Polytechnic Idah,
Kogi State.

SECTION H. (Some Innovations and Achievements as a Vice-Chancellor 2012 – 2016)

- **Repackaging the Academic Calendar:**

The Calendar of the University was repackaged since 2013/14 Academic Session to run as follows:

- ✓ Alpha Semester: August to November/1st week of December;
- ✓ Omega Semester: January to 1st week of May.

With this, all students are able to complete the session with three full months for both research and annual leave; all students are able to undergo compulsory internship; and some students can participate in annual students' exchange.

- **Research Clusters:**

The research clusters grew from 2 to 23 in a deliberate attempt to foster inter/multidisciplinary research works. This is now a platform for conference support and research grants award.

- **Research Centres and UNESCO Chairs:**

The University has completed the establishment of 2 Research Centres: 1 in ICT and the other in Biotechnology/Bioinformatics to commence immediately after the completion of the CUCRID building. Similarly, 2 UNESCO Chairs applications have been submitted to the UNESCO office for processing for the current year while several others are awaiting submission in the coming session. All these are attempts to institutionalise and internationalise research endeavours in the University.

- **Covenant University Journals:**

The University journal increased from 1 to 7 since my assumption of office. The journals are published biannually and are international in outlook.

- **Awards:**

- **Webometrics**

No.1 Private University in Nigeria, Second Overall Best University in Nigeria, No. 2 in West Africa, No. 33ⁱⁿ in Africa and No. 2027 in the World on the Webometrics Ranking of World Universities (February, 2016).

- **Web of Repositories**

Ranked No.1 in Web of Repositories in Nigeria and West Africa (February 2016).

- **Excellence and Innovation**

African Private University of the Year (2015) by the African Leadership Magazine Group and Special Congressional Commendation from the US legislative Black Caucus for pioneering Excellence and Innovation in tertiary education in Africa (March, 2016).

- **Social Media**
Covenant University was recognized in November, 2015 by the Nigerian Tribune Newspapers as number 1 Social-Media-Friendly University in Nigeria.
- **Scientific Researchers**
In the October 2015 BETA ranking of Scientists by Cybermetrics Laboratory of Researchers in Nigerian Universities, Covenant University had 110 of its Faculty listed among the first 797. The best University with Research Scientists in Nigeria.
- **Commissioned Projects and Patents**
 - ✓ **Commissioned Projects**
In line with the Product development drive for the year, a number of strategic structures that are germane to the attainment of Vision 10:2022 were commissioned. They include:
 - the Postgraduate Halls of Residence (Male and Female);
 - the Covenant University Centre for Research, Innovation and Discovery (CUCRID) building. A 6-storey building that houses: 4 Research centres, 1 High-Tech Equipment Centre, the Business School, the PG School and a Research incubation hub;
 - the West Africa Virus Epidemiology (WAVE) facility. A project to increase the productivity and sustainability of root and tuber crops;
 - the Centre for eGovernment and eBusiness Research Centre; and
 - the ultramodern Diagnostic Unit of the Covenant University Medical Centre.
 - ✓ **Patents**
The University obtained a total of 6 patents with 4 of them received in the current academic session to justify our goal for the year, which is “Innovation, Product development and Nation Building”.
- **Attraction of Foreign Scholars:**
The University has been able to attract on a yearly basis Fulbright and Carnegie Scholars as well as Visiting Scholars and Researchers all over the world to contribute to Curriculum development, Teaching and Research.
- **Collaboration and Linkages:**
The University has continued to forge Collaborations with renowned Universities in the US, Europe and Asia that have resulted in Students and Research exchanges as well as joint award of degrees.

- **Establishment of FM Station:**

My administration succeeded in establishing a Radio Station on Campus called Hebron FM. The station has been scaled up to operate on the Internet. Thus it is accessible all over the world.

- **Directorate of Industry Partnership:**

This is a new creation arising from the success of the Industry Partnership Luncheon held in 2015. The general objective is to harmonize Industry/Academic partnership for national development. This is a strategic approach to finding a lasting solution to the challenges of quality education and nation building.

The Unit, since inception last year, has made 27 promising contacts with key players in the manufacturing; research and automobile industries, with 9 Memoranda of Understanding signed while 18 others are in an advanced stage of consummating relationships with the University.

- **Directorate of Vision 10:2022:**

This is a new creation. The unit is consciously designed to oversee the implementation of the Strategic plan of the University, which is premised, on the 8-point Agenda of the present administration.

- **Covenant University Centre for Research, Innovation and Discovery (CUCRID):**

Upon assumption of office, I inherited Covenant University Centre for Research and Development (CUCERD). This was transformed to CUCRID with two sub-units: Research Park and Commercialization. The idea is to create an atmosphere conducive for research, creativity and innovation; publicize research work, interest and findings of Faculty that will expose them to international linkages and collaboration, and project the University research work and findings through patent, copyrights, workshops and exhibitions.

- **Centre for Life-long Learning (CeLL):**

This is a new creation and is responsible for driving the Open & Distance Learning programme of the University. **The Unit is to manage the part-time and online programmes of the University.** Currently, we have concluded work on Diploma in Leadership; Diploma in Entrepreneurship and Certificate in French.

- **Waste to Wealth Initiative:**

This is also a new creation that is aimed at improving the IGR base of the University. Waste to Wealth Initiative (W2W) was commissioned on October 8, 2014 covering all aspects of Solid Waste Management procedures, which include: Source Reduction and Reuse, Recycling/Composting, Energy Recovery as well as Treatment and Disposal. All these engender environmental sustainability and also mitigate the effect of environmental pollution. Currently, we have:

1. **Organic waste management:**

Organic wastes from homes and cafeterias are moved to farm sites and treated as manures.

2. Pet bottles:

Several tons of crushed pet bottles have already been sold and plans are on to increase our production capacity.

3. Waste papers:

Waste papers in the University have been exchanged for finished products such as tissue papers and others.

Furthermore, in order to improve our IGR, the University went into different types of block molding, which we now sell to Covenant University Construction Agency (CUCA). In all this, we have created jobs for the people and generated revenue for the University.

- **Establishment of Pawka Drinks Factory:**

The University commenced the construction of the first factory for the production of Pawka drinks. The project is nearing completion and when completed would improve the IGR status of the University as well as create employment opportunities for the community.

- **The Dreamers' Initiative:**

The initiative was created to provide the enabling environment for innovation, facilitate the culture of enterprise, incubate and accelerate projects with potentials for economic and social impact. The University has invested massively in 9 viable dreamers' projects and provided the infrastructural support to enable their operations. Almost all the projects have been completed.

- **Tutorials:**

We have put together a robust tutorial scheme, which has impacted positively on the academic performances of our students across all levels on campus. This is deployed to each Tab of the students based on programme of study and is accessible to all 24/7.

- **Town-Gown Initiative:**

This initiative was put together to help our students have interaction with experts in the industry in their specialized field of study, with a view to having a better understanding of current industry practice and expectations. To date, there are over 100 presentations and by extension, contacts made with professionals through this initiative.

- **Annual International Conference on African Development Issues (CU-ICADI):**

The annual CU-ICADI has become the hub of discourse for proffering solutions to African development challenges. The forum till date has attracted a former President of Nigeria, a former Minister and Ambassador, 3 Nobel Laureates, reputable academics of international repute, scholars and researchers from around the world, government officials and heads of government parastatals, captains of industry etc.

- **Mobile Learning Initiative**

My administration pioneered mobile learning in the University Education System in Nigeria. All the students of the University are provided with Tablets that serve as a platform for deploying educational resources. It:

- ✓ improves internal efficiency;
- ✓ supports learning anywhere, anytime; and
- ✓ offers mobile library and tutorial.
